"He who Plants a Tree, Plants a Hope"

Price List
of the
PROVO
NURSERIES

ESTABLISHED 1898

PROVO, UTAH

Telephone 161-W

Wholesale and Retail

B. H. BOWER
PROPRIETOR AND MANAGER

This list includes most of the growing plants in the Provo Nurseries, located just below the Union Depot, Provo, Utah. Third west street.—You cross the R. R. Tracks at fourth west, go one block south, then half block east to the Nursery.

In case you want plants not listed herein, please advise us, and if we are not growing them, we will get them for you from a reliable source.

We can assure you that we have the best assortment of Flowering Shrubs in the state of Utah. Not only that, but they are growing in nice clean rich soil, full of life, are well rooted, and branched, and you will be pleased on the receipt of them, and, as you watch the growth.

Today it is quite the thing to plant Shrubs around the foundation of your home. Plant as you can afford, complete if you feel able, but just a few at the corners, or in porch corners will help the appearance of your home, then you may add to as you can afford.

Prices listed here are individual plants or small orders, for thrifty stock full of life; rates are given on large lots or according to the number of plants in each order. Our aim is to please the customer and help beautify the various communities.

We are pleased to help you plan your planting; we also do your planting for you, charging you only for the labor.

At the prices quoted here we deliver plants at the R. R. Station, Express Office, or Post Office. You pay your Freight, Express and Parcel Post charges.

Any special arrangements other than those quoted here must be made at the office and can not be changed by an agent of this company.

Our address is 710 South 3rd West, Provo, Utah. Phone—161-W.

Instructions for Planting

When trees or plants arrive, take from package, heel them in the soil, water roots when you plant and when you heel them in. Dig hole large enough to admit all the roots except extra long ones may be cut back without harming the plant. Place soil from the surface, among the roots, leaving that taken from the hole, until the last, a light mulch on top is a help to the plants.

If you live at a distance from the railroad, it will pay you to add to your purchase price $12\frac{1}{2}c$ for special delivery stamp which makes first class mail of the parcel and insures quick delivery.

We exercise the greatest care to have our plants reach you in good condition and that they will prove true to label. Should a mistake occur, the right plant will be sent you without cost to you. We will in no case be responsible for a greater sum than that you paid for the plant.

We grow the best and import the choicest, thus we are prepared to give you complete satisfaction.

Give us a call or write for terms on large lots. Phone 161-W.

—B. H. BOWER, Prop. and Mgr.

APPLE TREES

1 to 10 trees, 4 to 5 ft	Each 50c
10 to 35 trees	Each 35c
35 to 100 trees	Each 30c

Early Summer Sorts

Red June—Best for eating fresh.

Red Astrachan—For pies, jellies, etc.

Wealthy—A hardy good red September Apple.

Late Apples

The New Red Delicious is a grand addition to the list of high class commercial and local market fruits.

Delicious—Noted for its excellent flavor and size.

Rhode Island Greening—The best cooking Apple known.

Winter Banana—This banana colored and flavored apple is as good as they grow them—Extra size and quality.

Rome Beauty—A firm fleshed excellent long keeper, stands handling extra well; a commercial striped apple.

White Winter Pearmain—Who does not know the wonderful flavor of the old standard Pearmain, Yum-Yum.

Crab Apples

Try some Crab apple jelly or preserve some if you want the best.

Hyslop Crab—A large red crab, extremely hardy and good for any use to which a crab is put.

Martha Crab—Slightly smaller but just as good and more to the tree, 50c.

PEAR TREES

1 to 10 trees, 4 to 5 feet	Each 50c
10 to 35 trees	Each 45c
35 to 100 trees	Each 40c

Bartlett—The well known luscious shipping and canning Pear.

Beurre de Anjou—Large Green with white specks; excellent for any purpose for which a pear may be used.

Wilder's Early—One of the largest and best Summer pears.

SWEET CHERRY TREES

Plant these for pleasure or profit.—They make you \$50.00 per tree. Handled in three grades, 4 to 5 feet, 3 to 4 feet and 2 to 3 feet.

4 to 5 ft. trees	\$1.00 each, 100 for \$60.00
3 to 4 ft. trees75 each, 100 for \$45.00
2 to 3 ft. trees50 each, 100 for \$35.00

Bing—A large black commercial cherry in great demand.

Black Tartarian—Ripens last of June, good for local market.

Lambert—Large black, a few days later than Bing, some like it better and larger planters use both as it prolongs the season.

Royal Ann (Napolian)—A very large yellow cherry with pink side next to sun; excellent for home use or for the cannery. Good money can be made with this cherry at 5c the pound.

TART AND SEMI-TART CHERRIES

Early Richmond—The early red Pie Cherry.

Large Montmorency—The popular canning red cherry.

Late Duke—Large Red Cherry, ripens August tenth.

Tart Cherry Trees—In 3 to 4 feet size 50c, per 100 \$35.00.

PLUMS AND PRUNES

3 to 4 ft. trees, retail	50c
4 to 5 ft. trees, retail	60c
Plums in 100 lots at	\$45.00 per 100
Prunes in lots of 100 at	\$35.00

Italian—The largest of the Blue Free stone Prunes, (Commercial).

French—The small reddish very sweet prune.

Sugar—Here you have a large red sweet prune, good for home use or market, very popular where known.

Peach Plum—Misnamed by some "Jefferson". A large red plum, sells at sight and is excellent for home use.

Satsuma—Or Blood plum, so called as meat is reddish, and makes a very pretty sauce, sells well on market.

Santa Rosa—If you want an ornamental tree that is also very profitable, plant Santa Rosa, large red—Tree grows erect, leaves bright green, with red fruit is as pretty a sight as you will behold in horticulture.

APRICOTS

Here is a fruit no garden plot is complete without, as it may be planted in a corner if necessary, but plant one. Trees 4 to 5 ft. sold at — Each tree 50c, by the 100 \$35.00.

Early Golden—A fair sized fruit of excellent flavor, (Sweet Pit).

Moorpark—Large luscious, home or market fruit.

NECTARINE

This delicious preserving fruit is not so well known as it should be.

3 to 5 ft. trees Each 50c

White Nectarine—Early and very choice, good size.

Red Late Nectarine—One of the best.

QUINCE

Have you ever eaten preserved quince? Well it beats them all. Sold at 50c the tree, 4 ft. trees.

Orange Quince—Large weighing 12 to 20 oz. each.

PEACH TREES

You may plant these eight feet apart in the garden, or on the border in the home lot; but put them 18 to 20 ft. in the orchard. You can have peaches and cream from July first to November. Peaches from your own lot with 5 or 6 trees.

5 to 6 ft. trees 1 to 10	60c
4 to 5 ft trees 1 to 10	50c
3 to 4 ft. trees 1 to 10	40c
By the 100—3 to 4 ft. trees	\$25.00
By the 100—2 to 3 ft. trees	\$18.00
(By the 1000, ask for prices.)	

Alexander—An old timer, large juicy with red stripes; early.

Champion—In our estimation this is the best flavored of the white peaches. Large, ripens in September.

Chinese Cling Stone—Large, round, white with red blush. (August).

Crofford—Early and late if you want them. Good old yellow fruits.

Early Elberta—A week earlier and some more free than the commercial Elberta.

Elberta—This is the standard shipping peach of the U. S. A. Large yellow and firm flesh, Aug. 20 to September 10.

J. H. Hale—Here is the real peach, large round; yellow flesh, reddish cast in sunny location. The very best peach ever produced, either for market or home use. "Believe it or not."

HEALTH CLING—The largest white Cling stone, follows Elberta.

May Flower—Here you have the July peach, white flesh and good.

Rochester—Have you been wanting a better early Orange peach than early Crofford? (Try a Rochester.) If you are a grower, 100 trees of these wont be too many.

Orange Cling—A good yellow cling popular as a bottling peach.

CURRENT PLANTS

Plant Red Currants for profits, also for jelly; plants 25c each—\$2.00 per dozen.

GOOSEBERRY

Downing—One of the best green and tender skin.

Poorman—A good red berry uniform in size (Large.)

GRAPE VINES

Hardy American Sorts

25c the vine; \$2.40 per dozen.

Campbell's Early—Larger than concord, and earlier.

Clinton—Extremely hardy, used for its juices.

Delaware—Small compact cluster, very sweet.

Niagra White—The best white grape.

French or Tendor Sorts

Black Hamburg—Large T-shaped cluster of large sweet grapes.

Muscat—Large white round sweet almost seedless; quite hardy.

Seedless Thompson's—A good sweet seedless grape bearing large long clusters, quite hardy.

Zinfendel—A large rich purple grape, compact on the bunch.

BLACK BERRIES

Nothing better than a black berry pie.

Plants 10c each; \$8.00 per 100.

Eldorado—Grown extensively in Colorado.

Snyder—This is one of the most hardy kinds.

Lucretia Dewberry—A running black berry but berries are much larger. This is a money maker.

PERENNIALS

Plant these for pleasure: you plant them once you always have them. No worry over seed coming up, your plant is established, and you may have continuous cut flowers all the summer through.

Anemone—Pink and white flowering, very attractive in late season, 20c.

Ageratum—This low growing plant, has a wondrous bloom of rich purple. Blooms in the late summer, 35c.

Bocconia—(Plume Poppy) Tall showy plants with spiral white bloom, late.

Chrisanthemums—Send in your list of preferred colors, 15c.

We have a large selection to choose from, 25c.

Coreopsis—A very attractive plant with a mass of rich yellow, bloom all through the summer.

Delphinium—(Lark Spur.) Dark blue and light blue bloom, 25c.

Dianthus—(Sweet William). This plant gives you a long period of bloom, 20c.

Dielytra—(Bleeding Heart). Very attractive for porch or yard, 75c.

Eulalie—(Pampa Grass) Rich with its tall grass and wavey, white plumes. Clump, 50c.

Ferns—In hardy ferns we have a good collection, they range in size and price, average 50c each.

Gaillardia—This plant gives you a wonderful amount of large rich orange color bloom with black eye, very showy, 20c.

Geum—Grows two feet tall and is a mass of rich pink bloom, 25c.

Golden Glow—This makes a tall plant for the corner or at side, makes a wonderful showing of yellow bloom, 20c.

Gypsophila—(Baby Breath). Used with cut flowers, 35c.

Hibiscus—(Marlow Marvel.) Tall branching, with flower five to eight inches across in August and September. We grow the Red, White and Pink sorts, 50c.

Iris—Nothing easier to grow, and gives an abundance of color of various shades in early summer, 25c.

Lychins—An early blooming plant pretty scarlet bloom, 20c.

Lilly—(Lemon Lilly). Bright yellow bloom, Memorial day, 20c.

(Brown Lilly) Like the above but has brown stripes, 25c.

Phlox—This family of perennials give a wide range in color and give an abundance of bloom, 20c.

Tritoma—(Red Hot Poker) Long leaves like a lilly, with stalk in center having bright red flower, 35c.

Yucca—With the new Spanish type of house there is a demand for the Spanish Needle, (Yucca), broad sword-like leaves, and tall strong stalk in center, growing to four feet in height. This stalk is completely covered with large white flowers in June. Price 75c.

Bulbs—Bulbs to plant in fall are Tulip, Corocus, Snowdrop, Jonquil, Narcissus, Hyacinth, and Peony bulbs or roots. Tulip, 50c a dozen, Hyacinth 15c each; Narcissus 10c;

Crocus and Snow drop 5c each; Peonies, 50c to \$1.50. Spring bulbs are Galdiolias, 50c dozen; Dahlas, 25c each; Lily, 50s; Peony, 50c to \$1.50.

SHADES AND ORNAMENTAL TREES

Ash—(White). A strong growing useful tree, \$1.50.

(Green). Similar to white, but a faster grower, \$1.50.

(Flowering Ash). A very graceful tree with red bark and large green leaves, a white bloom followed with bright red berries which hang on all winter, \$1.50.

Boxelder—This well known shade tree is hardy and forms a dense shade, \$1.00 to \$1.50.

Birch—A graceful white barked tree with drooping branches. 5 to 6 ft. trees, \$2.00; 6 to 8 ft. trees, \$3.00.

Elm—You read the catalogue, and hear the radio, about the wonderful new Chinese or Siberian Elm, but you can not grasp the glory of it until you watch it grow, \$2.50.

Horse Chestnut—A beautiful uniform growing tree with large rough leaves and large white bloom, followed by a pretty nut inclosed in a rough cover like a chestnut burr, \$2.50 up.

Soft Maple—This is a rapid growing tree with indented large leaves, which turn to a beautiful crimson in the fall, \$2.50.

Schwederli—Grows like the Norway, but has large bright red leaves in the early summer, later turning to green, \$3.50.

Poplar—Plant Carolini Poplar for real quick shade, nothing more rapid, and its leaves give you the quick shade, 75c to \$1.50.

RASPBERRIES

Black Cap—Raspberries are richer and may be dried or used fresh.

Gregg—One of the oldest and best Blacks.

Kansas—Large black and rich, (Popular) 10c each, \$1.00 per dozen. Red raspberries, 10c each, \$1.00 per dozen; \$7.00 per 100.

Cuthbert—Red, the queen of the market; mid season.

Latham—This new Red is a sensation, in size and productiveness.

Marlborough—Early light red, large berries.

St-Regis—(Everbearing). This plant gives you fruit all the season of good size and fine flavor.

Asparagus—One Dozen 50c; 100 \$3.00. This plant should be on every home lot. Easy to grow, and delicious to serve.

Conovers Colosal—Large and tender.

Washington—The new asparagus, highly recommended by the Government.

RHUBARB, PIEPLANT OR WINE PLANT

This furnishes an early spring tonic, and delicacy. 15c the plant; two year plants.

HEDGE PLANTS

English Privet—Which must be trimmed to suit; \$8.00 per 100.

Berberis Thunbergii—Small plants \$15.00 per 100. This is a nice Dwarf plant that makes a pretty hedge, bright green in summer, rich red in Fall.

Grus an Teplitz—Rich red rose, (A popular hedge plant. This plant gives a rich velvet glow all the summer through. As a specimen plant, 50c. Sold for hedges at 35s and 40c.

ORNAMENTAL AND FLOWERING SHRUBS

In this department we think we excell in number of kinds. Plant these as specimens or in groups. 75c each except as noted.

See us for prices on group lots.

Almond—Pink flowering, a mass of rich double rose like flowers.

Almond—White like about but pure white, bloom in May. (Both).

Althea—This is a tall tree like shrub that blooms in August and September. We have it in blue, pink, red, white and pink and white blended color blooms. Any shade you want.

Aralia—(Spinosa) This is a beautiful tree shrub, with long slightly-drooping leaves, giving a palm effect, a large pinnacle of white flowers at the tip. A grand specimen plant, \$1.00.

Aralia—(Pentaphylla) Long slender gracefully arched branches with bright green leaves, especially good in Autumn.

Aronia—An attractive hardy shrub, white flowers, followed by berry like fruits, leaves turn to red in the fall.

Barberry—(Berberis) Japan Barberry dwarf shrub with delicate small green leaves, turning to rich red in fall. Also covered in autumn with red berries. There is no shrub used more extensively, 50c each.

The new red Barberry, much like the green above, except the leaves are a bright red at all times, \$1.00.

Buddleia—(Butterfly Bush) A strong growing bush, bearing long spikes of purple flowers, from July until frost, 50c.

Calycanthus—(Sweet Shrub) or (All-spice). This plant has rich green leaves at the base of which are double chocolate blooms and very fragrant, 50c.

Cydonia Japonica—(Flowering Quince). A strong growing bush covered with a profusion of rich flame colored bloom in early summer.

Cornus—(Flowering Dogwood) Lutea, A yellow branched shrub, making a good shrub for contrast in color scheme.

Siberica—Red twigged wood with white bloom.

Cotoneaster—Divaricata—Oval lustrous leaves, turning crimson in fall, also has bright red fruit, \$2.50.

Horizontalis—Dense horizontal branches, shiny scarlet fruits, rich Oval leaves; \$2.50.
